## New detection and diagnosis methods for pests and pathogens in forest reproductive material

September 19-23, 2022  
University of Valladolid, Palencia, Spain

Are you:

- a PhD student, young researcher, or a professional working with forest regeneration, forest restoration, or tree and forest health issues?
- interested in learning more about methods to detect and diagnose pests and diseases in seeds and seedlings?

**JOIN THE TRAINING SCHOOL!**

For more information, click [here](#) or scan the QR code below

In questions about program,  
please contact the organizers:  
Julio Diez ([jdcasero@pvs.uva.es](mailto:jdcasero@pvs.uva.es)),  
Johanna Witzell ([johanna.witzell@lnu.se](mailto:johanna.witzell@lnu.se))

Deadline for applications: September 5th, 2022.

Instructions for applicants: <http://www.pen-caforr.org/training-schools/>

In questions about PEN-CAFoRR, applications and reimbursement, please contact:

Grant Awarding Coordinator – Gordana Kaplan ([gkaplan@eskisehir.edu.tr](mailto:gkaplan@eskisehir.edu.tr))

Action Vice-Chair – Barbara Mariotti ([barbara.mariotti@unifi.it](mailto:barbara.mariotti@unifi.it))

Action Chair – ([vladan.ivetic@sfb.bg.ac.rs](mailto:vladan.ivetic@sfb.bg.ac.rs))
